Meet people express the desire to taste the leaf and pressing it into plugs. The fact is, however, that the process is a very delicate one, and the leaf must be carefully attended to for months before it leaves the planter's hand. It must neither dry too quickly or too slowly. Even after it has reached the factory the utmost delicacy of manipulation is required. The weather must be carefully studied, for if there is too much moisture in the air when it is pressed it will mould, and the same will happen if it is too dry. It is for the purpose of opening the leaf, again, if it is over-dried in the oven it will turn crisp, and the tongue in swallowing it is by careful attention to all these points that the "Myrtle Navy" has been brought to such perfection. The firm who manufacture it have their own stores in Virginia, and from the leaf leaves the planter's hands until it is turned out of a factory, months afterwards, in plugs, it is under the care of their skilled and trusted employees.

MANY people are not aware that it is the wrapper of the tobacco which gives the color of the plug, and are therefore often deceived by a handsome outside appearance. The wrapper is a single film of leaf wrapped around the plug and is never good smoking tobacco. It is only because of its fine color. In the "Myrtle Navy" brand the chief attention is paid to the "filler," that is, the inside of the plug. It is this which determines the smoking tobacco. A tobacco can be made to look as well as the "Myrtle Navy" without much trouble or expense, but it may at the same time be a very inferior article.

Judge Walker, sitting in the county judge's criminal court, heard two cases Friday, both of which were somewhat important. As a result of the day's deliberation, Elmer John Proff, who had been from Quebec, will remain in the provincial penitentiary, he having pleaded guilty to the crime of stealing a horse and gold watch from farmer Domic, of Souris. The postmaster here, who had information to the effect that Proff was wanted for a similar offence in Quebec. After Proff was disposed of, Nat. Blizant, who has made himself notorious by his ill treatment of the young lad, Fred de Brown, was arraigned under the Dominion statutes, and pleaded not guilty. The lad Brown, Ben. Neil, A. H. Carol, J. P. P. A. Wilkes, J. C. Todd, J. P. and Mr. McDonald were called and testified on behalf of the prosecution. The evidence adduced went to show that the young boy, who is only 6 years old, had certainly been grossly ill-treated, and subjected to a most cruel and most wretched plight. Upon conclusion of the Crown's case the defence took a technical objection to the indictment, when an argument between counsel ensued. The judge postponed his decision upon the objection till Saturday next. The defence now intend to offer evidence, believing that no case has been made out by the Crown.

A. M. Peterson appeared for Crown, R. M. Matheson, for defence.
